

Clean Air

Patrick Nicholls

Air pollution, find a solution,
Help us breathe.
Clear the air, everywhere,
We need to save the planet.
Leave your car, share a ride,
Help the people stay alive.
Buy a bike, walk don't drive,
That's the way to turn the tide of pollution.
Help our breathing.

Toxic air,
Fills the sky.
Hides the Sun,
From ev'ryone.

Leave your car, share a ride,
Help the people stay alive.
Buy a bike, walk don't drive,
That's the way to turn the tide of pollution.
Help our breathing.

Air pollution, find a solution we believe in.
Air pollution, find a way to save our precious Earth.
Don't they know we need to breathe fresh air?
